American Red Cross *Special Citation for Exceptional Volunteer Service*

American Red Cross *Volunteer of the Year*

Education

B.S., University of Texas at Austin, 1990.

Major: *Human Ecology* Minors: *Architecture/ Biology/ Facility Design & Management*

Teaching Interest

To advocate aquatic health and safety knowledge that will promote a lifetime filled with safe water activities in and around the water. Instruction for all ability levels and ages is the goal in all mediums including swimming pools, waterfronts and waterparks. In addition, the introduction of more advanced avenues of instruction are introduced that include small craft safety, lifeguard training, coaching, skin diving and SCUBA.

Mentoring

The goal is the cultivation of the university student's interest in physical education and the opportunities that physical education teachers and coaches have and how they influence their future students through teaching, training and certification. For those pursuing an interest in teaching, goals are focused in the development safe and innovated methods of instruction. The introduction of through the vast assortment of courses offered, individuals can gain leadership roles to pursue avenues of development by service learning offered by the university with recreational and athletic events and connections with off campus entities including schools, fitness centers, diving facilities, hospitals and special needs housing. The involvement by engagement gives students the opportunities to discover their goals to promote fitness and wellness for a lifetime in the path they choose. One mentoring program that I am involved with yearly is the CATCH (Coordinated Approach to Child Health) Program offered by the Austin Independent School District (AISD). AISD physical education teachers are ask to host and direct activities in their school gymnasium that promote a healthy lifestyles not only to their students, but their families as well. Health and safety professionals in the community are asked to aid in the event promoting their specialty. AISD physical education coordinators and **KHE alumni Mary Renfro** (Odem Elementary-Austin) and **Rebecca Lambdin-Abrahams** (Maplewood Elementary-Austin) are just two of the many that were mentored by many of our department's faculty and are out in the workplace making a difference mentoring their own students for a lifetime of fitness, confidence and real life skills.

Graduate and Undergraduate Students Supervised

Graduate Teaching Assistants

Two graduate teaching assistants per semester (list not available).

Undergraduate Fieldwork Students (list available starting at 2011).

| Semester | Student Name | Course |
